For purposes of heading 9903.91.12, intermodal chassis, subassemblies thereof, and parts thereof are described as follows:

The articles consist of chassis and subassemblies thereof, whether finished or unfinished, whether assembled or unassembled, whether coated or uncoated, regardless of the number of axles, for carriage of containers, or other payloads (including self-supporting payloads) for road, marine and/or rail transport. Chassis are typically, but are not limited to, rectangular framed trailers with a suspension and axle system, wheels and tires, brakes, a lighting and electrical system, a coupling for towing behind a truck tractor, and a locking system or systems to secure the shipping container or containers to the chassis using twist-locks, slide pins or similar attachment devices to engage the corner fittings on the container or other payload.

The articles include, but are not limited to, the following subassemblies:

(a) Chassis frames, or sections of chassis frames, including kingpin assemblies, bolsters consisting of transverse beams with locking or support mechanisms, goosenecks, drop assemblies, extension mechanisms and/ or rear impact guards;

(b) Running gear assemblies or axle assemblies for connection to the chassis frame, whether fixed in nature or capable of sliding fore and aft or lifting up and lowering down, which may or may not include suspension(s) (mechanical or pneumatic), wheel end components, slack adjusters, axles, brake chambers, locking pins, and tires and wheels;

(c) Landing gear assemblies, for connection to the chassis frame, capable of supporting the chassis when it is not engaged to a tractor; and

(d) Assemblies that connect to the chassis frame or a section of the chassis frame, such as, but not limited to, pintle hooks or B-trains (which include a fifth wheel), which are capable of connecting a chassis to a converter dolly or another chassis. Importation of any of these subassemblies, whether assembled or unassembled, constitutes an unfinished chassis for purposes of this note.

The articles also include chassis, whether finished or unfinished, entered with or for further assembly with components such as, but not limited to: Hub and drum assemblies, brake assemblies (either drum or disc), axles, brake chambers, suspensions and suspension components, wheel end components, landing gear legs, spoke or disc wheels, tires, brake control systems, electrical harnesses and lighting systems.

(ii) Heading 9903.91.13 applies to articles of China provided for in statistical reporting number 8716.39.0090, or subheadings 8716.90.30 or 8716.90.50, other than intermodal chassis, subassemblies thereof, and parts thereof, of China, provided for in statistical reporting number 8716.39.0090 or in subheadings 8716.90.30 or 8716.90.50, which are subject to the additional duties provided for in heading 9903.91.12.

(l)

(i) Heading 9903.91.14 applies to ship-to-shore gantry cranes, configured as a high- or low-profile steel superstructure and designed to unload intermodal containers from vessels with coupling devices for containers, including spreaders or twist-locks, provided for in subheading 8426.19.00, that are: (1) products of China; (2) products of countries other than China that contain components, assemblies or subassemblies, of China, as specified in subdivision (l)(ii) of this note; or (3) products that are manufactured by a company or other entity that is owned or controlled by a Chinese person or legal entity.

Heading 9903.91.14 shall not apply to entries under headings 9903.91.09 (as long as it is operative), 9903.91.15 or 9903.91.16. Notwithstanding U.S. note 1 to this subchapter, products of China that are subject to the additional duties imposed by heading 9903.91.14 shall also be subject to the additional duties imposed by heading 9903.92.10.

(ii) A ship-to-shore gantry crane of a country other than China that contains one or more of the following components, assemblies or subassemblies that are products of China shall be considered to be a ship-to-shore gantry crane of China for purposes of heading 9903.91.14:

(a) the boom;

(b) the trolley;

(c) the spreader;

(d) the cabin;

(e) the legs;

(f) the cable reel;

(g) the power supply;

(h) the bogie set and wheels; and

(i) any information technology equipment used to operate or control the crane.

(iii) A ship-to-shore gantry crane that is manufactured by a company or other entity that is owned or controlled by a Chinese person or legal entity shall be considered to be a ship-to-shore gantry crane of China for purposes of heading 9903.91.14.

(iv) For purposes of heading 9903.91.15, by claiming this heading, the importer attests that the ship-to-shore gantry cranes: (1) are not products of China; (2) are not manufactured, assembled, or made using components, assemblies or subassemblies that are products of China, as defined in subdivision (l)(ii) of this note; and (3) are not manufactured by a company or other entity that is owned or controlled by a Chinese person or legal entity, as defined in subdivision (l)(v) of this note.

(v) For purposes of headings 9903.91.14 and 9903.91.15:

(5) An entity is “subject to the ownership, control, or direction of” another entity if:

(A) 25 percent or more of the entity’s board seats, voting rights, or equity interest are cumulatively held by that other entity, whether directly or indirectly via one or more intermediate entities; or

U.S. Notes (con.)

(B) the entity has entered into a licensing arrangement or other contract with another entity (a contractor) that entitles that other entity to exercise effective control over the manufacturing or assembly (collectively, "production") of a ship-to-shore gantry crane, its components, assemblies, subassemblies, or other materials that would be attributed to the entity.

(b) "The Government of the People's Republic of China" means:

(1) A national or subnational government of the People's Republic of China;

(2) An agency or instrumentality of a national or subnational government of the People's Republic of China;

In order to be considered "senior," an official should be or have been in a position of substantial authority over policy, operations, or the use of government-owned resources.

As such, any holdings of the subsidiary are fully attributed to the parent.

(2) If a "parent" entity that qualifies under subdivisions (v)(a)(1)–(3) directly holds less than 50 percent of a "subsidiary" entity's board seats, voting rights, or equity interest, then indirect ownership is attributed proportionately.

(e) For purposes of determining whether an entity has effective control, an entity that qualifies under subdivisions (v)(a)(1)–(3) that has a contractual relationship to determine the quantity or timing of production; to determine which entities may purchase or use the output of production; to restrict access to the site of production to the contractor's own personnel; or the exclusive right to maintain, repair, or operate equipment that is critical to production, is deemed to have effective control over an entity.

SUBCHAPTER IV

SAFEGUARD MEASURES PURSUANT TO THE AGREEMENT
ON AGRICULTURE AND ADDITIONAL IMPORT RESTRICTIONS
ESTABLISHED PURSUANT TO SECTION 22 OF THE
AGRICULTURAL ADJUSTMENT ACT, AS AMENDED

U.S. Notes

1. This subchapter contains safeguard measures established pursuant to Article 5 of the Agreement on Agriculture (as approved by section 101 of the Uruguay Round Agreements Act), which allows the imposition of additional duties based upon either the value or the quantity of goods imported into the United States for certain agricultural products. In addition, the subchapter contains provisions which may be proclaimed pursuant to section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624). All of the duties provided for in this subchapter are cumulative duties which apply in addition to the duties, if any, otherwise imposed in the tariff schedule on the goods described herein. Unless otherwise stated, the duties or limitations provided for in this subchapter apply until suspended or terminated. Goods of the following countries imported into the United States shall not be subject to any of the provisions, duties or limitations of this subchapter:

   Canada, Mexico, Jordan, Singapore, Chile, Australia, Morocco, El Salvador, Honduras, Nicaragua, Guatemala, Bahrain, Dominican Republic, Costa Rica, Peru, Oman, Korea, Colombia, Panama

2. The provisions imposing safeguard duties based upon value set forth in this subchapter shall apply to all goods described herein (other than sheep meat, which is not subject to safeguard duties based upon value) except during periods announced in the Federal Register by the Secretary of Agriculture in consultation with the United States Trade Representative as the effective periods of the provisions imposing safeguard duties based upon quantity with respect to such goods, during which period the safeguard duties based upon value shall be deemed suspended and only the safeguard duties based upon quantity shall apply to such goods. Unless the Secretary of Agriculture invokes safeguard duties based upon quantity for specified goods and so announces in the Federal Register (as provided in the first sentence of this note), the tariff provisions providing for such duties shall be deemed suspended and shall not apply to the goods described herein. No safeguard duties based upon quantity shall apply to goods en route on the basis of a contract settled before the effective date of such measures specified in a notice issued by the Secretary of Agriculture.

3. For the purposes of this subchapter, imports of peanuts in the shell shall be charged against the quantities in this note on the basis of 75 kilograms for each 100 kilograms of peanuts in the shell.

TEMPORARY MODIFICATIONS ESTABLISHED PURSUANT TO
THE AGREEMENT WITH ISRAEL CONCERNING CERTAIN ASPECTS
OF TRADE IN AGRICULTURAL PRODUCTS

XXII
99-VIII-1

U.S. Notes

1. This subchapter contains temporary modifications of the provisions of the tariff schedule established pursuant to the United States' agreement with Israel concerning certain aspects of trade in agricultural products, dated November 4, 1996. Products of Israel eligible for benefits of the agreement when imported into the customs territory, and described in the provisions of this subchapter for which quantitative limits are prescribed along with rates of duty followed by the symbol "(IL)" are herein provided, are subject to duty under the provisions and at the rates set forth in this subchapter in lieu of the rates provided therefor in chapters 1 through 97 in rates of duty column 1 when entered in quantities that are within the limits provided in this subchapter. Notwithstanding quota provisions elsewhere in the tariff schedule, eligible products of Israel shall be permitted to enter the United States to the extent and at the duty rates herein provided. No goods entered under the quantitative limits set forth in this subchapter shall be counted toward any quota or tariff-rate quota provided for such goods elsewhere in the tariff schedule. No other preferential tariff treatment provided for elsewhere in the tariff schedule shall be afforded to goods described in the provisions of this subchapter. Effective with respect to goods entered, or withdrawn from warehouse for consumption, on or after January 1, 2004, no eligible products of Israel entered under the provisions of this chapter shall be subject to additional duties under subchapter IV of this chapter. Unless otherwise provided, the provisions and notes in this subchapter are effective as to such products of Israel that are entered, or withdrawn from warehouse for consumption, on or after December 4, 1996, and through the close of December 31, 2026, after which date this subchapter shall cease to apply to any goods entered after that date.

2. Wherever goods are described by a provision of this subchapter and accorded a temporary modification of the otherwise applicable duty or quota treatment from chapters 1 through 97 of this schedule, the reporting number, in the absence of specific instructions providing otherwise, shall be the appropriate statistical reporting number for the basic provision (the appropriate provision for classification purposes in chapters 1 through 97) preceded by the appropriate subheading number from this subchapter. For statistical purposes, both the basic provision statistical reporting number and the applicable subheading number from this subchapter shall be collected by the United States Bureau of Census.

Compiler's note: Prior to January 1, 2016, subchapter XIV set forth temporary provisions established pursuant to the U.S. Bahrain Free Trade Agreement (see general note 30 to the tariff schedule). Under the terms of U.S. note 1 to that subchapter, the entire subchapter was deleted at the close of December 31, 2015. However, Presidential Proclamation 9223 of December 23, 2014 (79 F.R. 78681) provided that the effective period of U.S. note 13 to that subchapter and the related heading, 9914.99.20, was extended through the close of July 31, 2016. Accordingly, those provisions were restated in archive versions of this subchapter (see online HTS archive) with pertinent rate line in accordance with that proclamation; format is not identical to 2015 HTS.

SUBCHAPTER XV

MODIFICATIONS ESTABLISHED PURSUANT TO
THE DOMINICAN REPUBLIC-CENTRAL AMERICA-UNITED STATES FREE TRADE AGREEMENT

U.S. Notes

1. This subchapter contains temporary tariff provisions established pursuant to the Dominican Republic-Central America-United States Free Trade Agreement. Goods of a party to the Agreement as defined in general note 29(a) to the tariff schedule, and described in subheadings 9915.02.05 through 9915.21.20 of this subchapter for which a rate of duty followed by the symbol "P+" in parentheses is herein provided, are subject to duty at the rate set forth in this subchapter in lieu of the rate provided therefor in chapters 1 through 97. Unless expressly modified, the quantities set forth in U.S. notes 4 through 14 to this subchapter are specifically allocated to such country and year in the note and shall not be reallocated to any other country or year. Goods of a party to the Agreement that are entered into the United States under the provisions of subheadings 9915.02.05 through 9915.21.20 are not subject to any of the provisions, duties or limitations of subchapter IV of chapter 99 of the tariff schedule. Goods of a party to the Agreement as defined in general note 29(a) to the tariff schedule, and described in subheading 9915.50.01 (or in any subsequent subheadings of this subchapter which may hereafter be established), are subject to duty at the special rate of duty set fourth therein in lieu of the special rate of duty provided for in chapters 1 through 97 or subchapter II of chapter 98 of the tariff schedule, unless such goods are entered at the appropriate general duty rate provided for in chapters 1 through 97 of the tariff schedule. At the close of December 31, 2025, this subchapter shall be deleted from the tariff schedule and shall cease to apply to any goods entered after that date. [**Compiler's note: The provisions of this subchapter have expired but will be retained in the HTS through the close of December 31, 2026, to facilitate Customs processing of entries.]**

2. For purposes of this subchapter, the term "goods described in U.S. note 2 to this subchapter" means goods entered under subheadings 9915.02.05 through 9915.21.20, inclusive. Such goods must satisfy the requirements of general note 29(a) to the tariff schedule, except that operations performed in, or material obtained from, the United States shall be considered as if the operations were performed in, and the material was obtained from, a country that is not a party to the Agreement as defined in general note 29(a) to the tariff schedule. For purposes of determining which country-specific tariff-rate quota applies to such a good, the nonpreferential rules of origin used in the normal course of trade shall be applied.

3. Whenever goods are classifiable in a provision of chapters 1 through 97 of the tariff schedule (referred to herein as "basic provision") for which the applicable duty rate is set forth in a subheading in this subchapter, the reporting number for such goods, in the absence of specific instructions to the contrary, shall be the appropriate statistical reporting number for the basic provision (the appropriate provision for classification purposes in chapters 1 through 97) preceded by the subheading number from this subchapter. For statistical purposes, both the basic provision statistical reporting number and the applicable subheading number from this subchapter shall be collected by the United States Bureau of Census.

99-XVI-1

[Compiler's note: The provisions of this subchapter have expired because final staged reductions were implemented as of January 1, 2018; this subchapter has now been deleted as previously proclaimed.]

SUBCHAPTER XVII

MODIFICATIONS ESTABLISHED PURSUANT TO
THE UNITED STATES-PERU TRADE PROMOTION AGREEMENT

U.S. Notes

1. This subchapter contains modifications of the provisions of the tariff schedule established pursuant to the United States-Peru Trade Promotion Agreement. Goods of Peru, entered under the terms of general note 32 to the tariff schedule, and described in subheadings 9917.04.10 through 9917.04.69 of this subchapter for which a rate of duty followed by the symbol "(PE)" is herein provided, are subject to duty at the rate set forth in this subchapter in lieu of the rate provided therefore in chapters 1 through 97. For purposes of this subchapter, notwithstanding any other provisions of the tariff schedule, the term "goods of Peru, under the terms of general note 32 to the tariff schedule" means goods of Peru that satisfy the requirements of general note 32 to the tariff schedule, except that operations performed in, or material obtained from, the United States shall be considered as if the operations were performed in, and the material was obtained from, a country that is not a party to the Agreement as defined in general note 32 to the tariff schedule. Such goods of Peru entered into the United States under the provisions of subheadings 9917.04.10 through 9917.04.69 are not subject to any of the provisions, duties or limitations of subchapter IV of chapter 99 of the tariff schedule. Unless otherwise provided, U.S. notes3 through 5 and subheadings 9917.04.10 through 9917.04.69 of this subchapter are effective as to such goods of Peru entered, under general note 32 to the tariff schedule, through the close of December 31, 2025 and shall be deleted from the tariff schedule at the close of such date. **[Compiler's note: The provisions of this subchapter have expired but will be retained in the HTS through the close of December 31, 2026, to facilitate Customs processing of entries.]**

2. Whenever goods are classifiable under a provision for which the modification of the applicable United States-Peru Trade Promotion Agreement rate of duty is provided for in a subheading in this subchapter, the reporting number, in the absence of specific instructions to the contrary, shall be the appropriate statistical reporting number for the basic provision (the appropriate provision for classification purposes in chapters 1 through 97) preceded by the subheading number of this subchapter. SUBCHAPTER XVIII

MODIFICATIONS ESTABLISHED PURSUANT TO
THE UNITED STATES-COLOMBIA TRADE PROMOTION AGREEMENT

U.S. Notes

1. This subchapter contains modifications of the provisions of the tariff schedule established pursuant to the United States-Colombia Trade Promotion Agreement. Goods of Colombia, entered under the terms of general note 34 to the tariff schedule, and described in subheadings 9918.02.01 through 9918.24.11 of this subchapter for which a rate of duty followed by the symbol "(CO)" is herein provided, are subject to duty at the rate set forth in this subchapter in lieu of the rate provided therefor in chapters 1 through 97. Originating goods of Colombia entered into the United States under the provisions of subheadings 9918.02.01 through 9918.24.11 are not subject to any of the provisions, duties or limitations of subchapter IV of chapter 99 of the tariff schedule. Unless otherwise provided U.S. notes 3 through 9 and subheadings 9918.02.01 through 9918.24.11 of this subchapter are effective as to such goods of Colombia entered, under general note 34 to the tariff schedule, through the close of December 31, 2026 and shall be deleted from the tariff schedule at the close of such date. For purposes of this subchapter, goods are "originating goods of Colombia" eligible for the benefits accorded to goods entered under the quantitative limitations set forth in U.S. notes 3 through 9 of this subchapter if they satisfy the requirements set forth in general note 34(o) to the tariff schedule, except that operations performed in, or material obtained from, the United States shall be considered as if the operations were performed in, and the material was obtained from, a country that is not a party to the agreement identified in the first sentence to this note.

2. Whenever goods are classifiable under a provision for which the modification of the applicable United States-Colombia Trade Promotion Agreement rate of duty is provided for in a subheading in this subchapter, the reporting number, in the absence of specific instructions to the contrary, shall be the appropriate statistical reporting number for the basic provision (the appropriate provision for classification purposes in chapters 1 through 97) preceded by the subheading number of this subchapter. For statistical purposes, both the basic provision statistical reporting number and the applicable subheading number from this subchapter shall be collected by the United States Bureau of Census.

1. This subchapter contains modifications to the tariff schedule established pursuant to the United States-Panama Trade Promotion Agreement. Such goods of Panama entered into the United States under the provisions of subheadings 9919.04.10 through 9919.61.12 are not subject to any of the provisions, duties or limitations of subchapter IV of chapter 99 of the tariff schedule.

SUBCHAPTER XX

MODIFICATIONS ESTABLISHED PURSUANT TO
THE UNITED STATES-KOREA TRADE PROMOTION AGREEMENT

U.S. Notes

1. This subchapter contains modifications of the provisions of the tariff schedule established pursuant to the United States-Korea Free Trade Agreement. Goods of Korea, under the terms of general note 33 to the tariff schedule, entered and described in any of subheadings 9920.04.10 through 9920.85.02 of this subchapter for which a rate of duty followed by the symbol "(KR)" is herein provided, are subject to duty at the rate set forth in this subchapter in lieu of the rate provided in chapters 1 through 97. For purposes of this subchapter, notwithstanding any other provisions of the tariff schedule, the term "goods of Korea, under the terms of general note 33 to the tariff schedule" means goods of Korea that satisfy the requirements of general note 33 to the tariff schedule, except that operations performed in, or material obtained from, the United States shall be considered as if the operations were performed in, and the material was obtained from, a country that is not a party to the Agreement as defined in general note 33 to the tariff schedule. Such goods of Korea entered into the United States under the provisions of subheadings 9920.04.10 through 9920.85.02 are not subject to any of the provisions, duties or limitations of subchapter IV of chapter 99 of the tariff schedule. Unless otherwise provided, the provisions of this subchapter are effective as to such goods of Korea, under general note 33 to the tariff schedule, entered through the close of December 31, 2026 and shall be deleted from the tariff schedule at the close of such date.

2. Whenever goods are classifiable under a provision for which the modification of the applicable United States-Korea Free Trade Agreement rate of duty is provided for in a subheading in this subchapter, the reporting number, in the absence of specific instructions to the contrary, shall be the appropriate statistical reporting number for the basic provision (the appropriate provision for classification purposes in chapters 1 through 97) preceded by the subheading number of this subchapter. For statistical purposes, both the basic provision statistical reporting number and the applicable subheading number from this subchapter shall be collected by the United States Bureau of Census.

3. The aggregate quantity of originating goods of Korea entered under subheading 9920.04.10 in any calendar year shall not exceed the quantity specified below for that year.

Year	Quantity (Metric tons)	Year	Quantity (Metric Tons)
3/15/2012-12/31/2012	300	2017	348

2014	318	2019	369
2015	328	2020	380

Beginning in calendar year 2021, quantitative limitations shall cease to apply to such originating goods of Korea. Unless earlier modified or terminated, this note and subheadings 9920.04.10 through 9920.04.30 shall be deleted from the tariff schedule at the close of December 31, 2021.

STATISTICAL ANNEXES 1/

Annex A -- Schedule C, Classification of Country and Territory Designations for U.S. Import Statistics

Annex B -- International Standard Country Codes

Annex C -- Schedule D, Customs District and Port Codes

1/ The statistical annexes have not yet been updated from the 2025 version. These annexes will be updated in early 2026.

ANNEX A

Schedule C - Classification of Country and Territory Designations for U.S. Foreign Trade Statistics

Schedule C contains the country and territory designations for use in compiling the U.S. export and import statistics. These designations should be shown in all cases where statistical information is required. The first part of this schedule contains the country designations arranged in numeric order by continent and listed in sequence within each continent generally from north to south and west to east. Abbreviated country designations, which are used in lieu of complete country names in some foreign trade reports, are also shown. The second part contains a listing in alphabetical arrangement of the countries, territories, etc., with their numeric codes. The names of the entities listed are generally the conventional spellings as approved by the U.S. Board on Geographic Names.

Revisions to Schedule C will be announced in the form of "special notices" to data users, as Public Bulletins to Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, and as supplements to the Harmonized Tariff Schedule of the United States Annotated for statistical purposes (HTS). HTS also includes a list of International Standard (ISO) Country Codes to be used by importers to report country of origin.

ANNEX C

Schedule D - Classification of U.S. Customs Districts and Ports for U.S. Foreign Trade Statistics

Please see the U.S. Customs and Border Protection's website for the most current listing of Code Numbers, Customs Districts and Ports. (See https://www.cbp.gov.)

Schedule D is included in the HTS for the convenience of the trading community. It lists U.S. Customs and Border Protection districts, the ports included under each district, and the corresponding numeric codes that must be reported for U.S. foreign trade statistics. Thus, this Schedule contains a code for each official U.S. Customs district and port, with some additional codes provided to meet specific compiling requirements of the foreign trade statistics program. The headquarters port for each district is underlined.

Some Customs ports in this list show two codes. Exporters and importers may report either code. The first part of this Schedule presents the Customs districts and ports arranged in numerical order by code, while the second part lists the ports in alphabetical order.

Because there can be a time lag in reflecting in the HTS all updates to this Schedule, users are encouraged to go to the CBP or Census web sites:

a. Go to www.cbp.gov or https://www.dhs.gov/locate-port-entry-air-land-sea to check current information and seek assistance, including how to contact ports.

b. In addition, we note that revisions to Schedule D are announced in the form of "special notices" to data users, as Public Bulletins to Schedule B, Statistical Classification of

Domestic and Foreign Commodities Exported from the United States. See https://www.census.gov/foreign-trade/schedules/d/distcode.html for current information. To reflect the special notices, this statistical annex to the Harmonized Tariff Schedule of the United States Annotated for Statistical Purposes will periodically be updated.

China Tariffs

(Last Updated January 1, 2026)

This list is a reference for the additional duties on products of China pursuant to section 301 of the Trade Act of 1974. For information on International Emergency Economic Powers Act (IEEPA) duties on products of China, Hong Kong, or Macau, see U.S. notes 2(u) and 2(v) to subchapter III of chapter 99 of the HTS.

The table below lists the HTS subheadings in chapters 01 through 97 that are covered by the additional tariffs on products of China under section 301 and the applicable HTS heading in subchapter III of chapter 99 where the additional tariff is provided for. For additional information on these additional tariffs under section 301, please see U.S. notes 20 and 31 and the related headings and subheadings to subchapter III of chapter 99.

For reference, heading 9903.88.01 became effective on July 6, 2018; heading 9903.88.02 became effective on August 23, 2018; heading 9903.88.03 became effective on September 24, 2018; heading 9903.88.04 became effective on September 24, 2018; heading 9903.88.15 became effective on September 1, 2019; headings 9903.91.01, 9903.91.02, 9903.91.03, and 9903.92.10 became effective on September 27, 2024; headings 9903.91.05 and 9903.91.11 became effective on January 1, 2025; headings 9903.91.06, 9903.91.07, and 9903.91.08 became effective on January 1, 2026. Search for an 8-digit subheading of interest; if it appears on this list, products in that subheading are subject to an additional duty under section 301 if they are products of China. Any product exclusion that may be granted by the U.S. Trade Representative (USTR) would be enumerated in U.S. note 20, subchapter III of chapter 99 and would be indicated by a superscript endnote attached to the end of the applicable 10-digit article description in chapters 01-97. This table is provided for reference only; users should also consult the HTS itself and the related Federal Register notices for the official list of covered products.

Additional information may be obtained from USTR at (202) 395-5725, the section 301 hotline. U.S. Customs and Border Protection can be consulted for procedural matters or other questions at traderemedy@cbp.dhs.gov. You may also wish to seek an electronic ruling on classification or country of origin from Customs at erulings.cbp.gov. The modifications set forth in this change record reflect all of the updates made to the HTS since the last printed edition (2025 Basic Edition). Note that the Change Record does not include previously proclaimed reductions in staged rates of duty which take effect on January 1, 2026, endnotes or minor non-substantive adjustments to the format of any line. The noncumulative change records of each online revision (available in the archive) list chapters reposted for each revision. A column indicating the revision for each entry has been added to for ease of use.

Notes: For purposes of this record, the terms "added" and "deleted" refer to the insertion or removal of 8-digit (legal) tariff rate lines or legal notes; the terms "established" or "discontinued" refer to the insertion or removal of 10-digit (nonlegal) statistical reporting numbers or notes. The term "annotated" refers to the creation of new 10-digit provisions under a previously unsubdivided rate line; the term "restored" refers to the deletion of all annotations under an existing rate line. The term "modified" may be used with changes in any provision or note.
